Tzolkin Daily Planner

Are you ready to embark on a great Adventure for the next 260 days? The Daily Planner will help you plan in more fun and empowering ways!

Based on the modern interpretation of the Tzolkin, the new cycle started on May 24, 2017 and ends on February 7, 2018. Schedule your appointments as you get in tune with the daily energies and infuse each day with deeper meaning and purpose.

In this class, Mariela will teach you how to use the planner in ways that work for you based on your own energies. You will learn (*no previous experience required*):

- How to draw your Oracle of Birth on the personal planner
- How to find the energies for a specific date
- Where to add the dates that are most beneficial to you
- When your Galactic Birthday is in this cycle
- How to use it daily
