

GUIDE TO THE BLUE CASTLE OF TRANSFORMATION

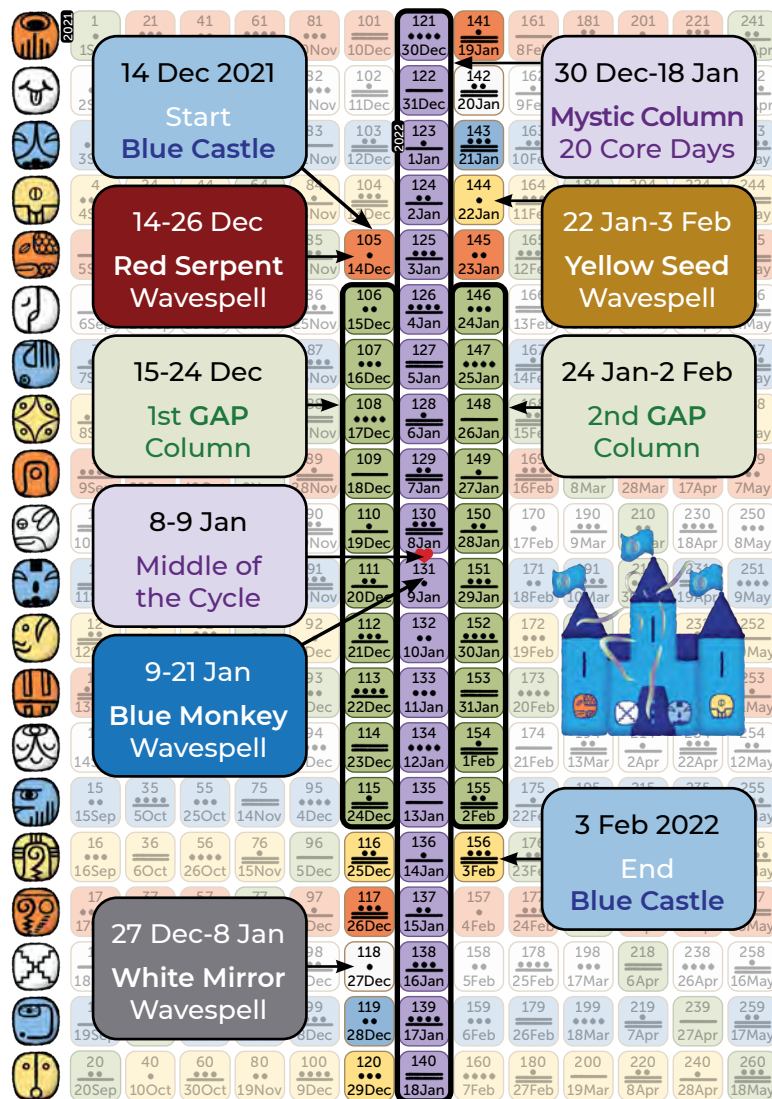

14 Dec 2021 - 3 Feb 2022 (Kins 105-156)

The Blue Castle starts, in the current Tzolkin cycle of 260 days, on 14 December 2021. For the following 52 days (until 3 February), we have a great opportunity to change the way we experience life and to transform what no longer serves us. This is the most intense period of the cycle since 40 out of its 52 days are special days, including two columns of ten [Galactic Activation Portal](#) (GAP) days each and the central [Mystic Column](#) with its twenty Core Days. To get in tune with the Blue Castle energies in this Tzolkin cycle, you can use the following table:

GAP Days & Two GAP-day Columns

As you can see in the Harmonic Module or Tzolkin matrix, there are two green columns in the middle outlined in black. These columns contain ten consecutive days each called Galactic Activation Portals. A GAP day is a day in which we experience higher frequencies and intensity. On a human/ego level, they may feel 'messy' and overwhelming. On a spiritual/soul level, these portals are gateways for receiving cosmic wisdom in order to continue accelerating our process of transformation and conscious evolution on Earth.

Within the current cycle, the first GAP-day column is from 15 to 24 December. This column always starts on the second day of the **Red Serpent Wavespell**, time to listen to our instincts, act upon our gut-feelings and take care of our vital force.

The second GAP-day column is from 24 January to 3 February, and it always starts on the third day of the **Yellow Seed Wavespell**, time to be clear on what we want to manifest, step out of our comfort zone, have patience and trust.

Mystic Column & Core Days

The [Harmonic Module](#) is the matrix that contains the Tzolkin cycle of 260 days. There are 13 columns of 20 days each. The seventh column in the middle is called the [Mystic Column](#), which symbolically represents our spine that keeps us aligned and centered. This column can be understood as a period of attunement of 20 days called [Core Days](#), time to be present in the moment with all our senses, to go within and rest. Although also intense, it serves as a pause in between the two GAP-day columns. In this cycle, it is from 30 December to 18 January.
